

A 19-KEY RUSTIC ECO-LODGE IN KAREN STATE

HPA-AN

Here individual cottages blend traditional Karen architecture with modern comfort. Guests will enjoy a back-to-nature experience in a landscape abundant with the area's unique plant life and views of the striking Mount Zwe Ka Bin.

EMERGENCE OF INSPIRATION

With the goal of attracting visitors away from the established tourist circuit to an exciting new destination, the inspiration sparkled and spanned since the region lacked anything in the way of high-quality accommodation. Visitors to the region will also be enamoured by the warm welcome on offer. Karen and Mon people are renowned for their generosity, hospitality and relaxed approach to life. Local traditions proved resilient throughout Myanmar's long period of isolation, enabling people visiting the region today to immerse themselves in authentic cultural experiences.
